

Appointments Premium

At any event, meeting the right people makes all the difference. With Cvent Appointments Premium, facilitate those meetings between attendees, employees, sponsors, and exhibitors, so they can make more connections and foster deeper relationships.

It's a flexible solution that makes managing appointments more efficient, gives you the oversight and control you need, and helps attendees get the most out of your events. Your exhibitors will be able to maximize the value and ROI they get from your events by connecting them with high-quality leads.

THE FLEXIBILITY AND CONTROL YOU NEED

- Define unique attendee groups, such as employees, customers, prospects, and exhibitors, then set rules and parameters for visibility, permissions between groups, and who they can meet with
- Create appointment types with predefined timeslots and locations for meetings, which is particularly helpful for managing capacities and allowing sufficient time between meetings
- Schedule meetings on behalf of attendees and have those appointments be automatically accepted.
- Gain a deeper understanding of appointments program by pulling insights through question filtering

AN INTEGRATED EVENT SOLUTION

Cvent Appointments Premium is available as a standalone solution, but becomes more powerful when it's used with our other event marketing and management solutions.

Create a seamless experience for you and your attendees, and access the information that matters most in real-time.

- Understand time and meeting space availability
- Allow attendees to access their appointment scheduler right from your event
- With our standalone solution, enable attendees to find other like-minded attendees based on registration questions filters
